

# KLARWET TRN

## Detergent/ Wetting & Emulsifying Agent With Low Foaming Properties. APEOs & NPEOs Free.

### Chemical Nature

Mixture of Ethoxylated products

### Ionic Nature

Non Ionic

### pH

6.0 – 8.0

### Physical Appearance

Clear Liquid

### Odor

Characteristics

### Solubility

Soluble in water

### Fabric Type

Knitted and Woven fabrics of all kinds

### Storage

12 months, 25-35 °C.

### Health & Safety

SDS available upon request

### Product Feature

- Due to its low foaming features, it can be used in Jet Processes.
- Suitable for a wide range of textile applications.
- Suitable for continuous/ discontinuous scouring, bleaching and washing process
- Due to non-jelling feature, recommended for auto dosing processes
