

ECOMIN FLUORESCENT YELLOW

Stable aqueous dispersion of fluorescent yellow pigment with high color yield.

Physical Appearance
Bright Yellow Liquid

pH
7.0-8.0

Color Change
 $\Delta E < 1\%$

Solubility
Soluble in water

Odor
Odorless

Storage
12 months, 25-35 °C.

Health & Safety
SDS available upon request.

Fastness Properties:

Fastness (at 15%)	Value
Lightfastness (ISO 105-B02)	2
Heat Stability: 3' 150 °C + 3' 170 °C	5
Heat Stability: 3' 150 °C + 1' 190 °C	5
Wash Fastness: 40°C	5
Wash Fastness: 70°C	2
Dry Cleaning (ISO 105-D01)	4
PVC Coating (ISO 105-X10)	1-2

Features:

- **ECOMIN FLUORESCENT YELLOW** is a fine and clear dispersion.
- It produces brighter and more brilliant color that conventional pigments can not produce.

Application:

- **ECOMIN FLUORESCENT YELLOW** can be used in all water-based pastes.
- **ECOMIN FLUORESCENT YELLOW** can be used 5-15% in water based printing bases.
