

ECOSOL SILVER

Phthalate-free printing paste used to achieve an elastic, soft touching and Silver effect in textile printing.

Chemical Nature

Phthalate Free, Oil Base

Ionic Nature

Non-Ionic

pH

$\approx 7 \pm 0.5$

Physical Appearance

Silver Paste

Fabric Type

Cotton, PES, CO/PES blend fabric

Squeegee

Shore: Medium 65

Mesh

Count: 43-120 T

Health & Safety

SDS available upon request

Product Feature

- Provides a clear silver print.
- It is ready to use paste and does not require any preparation before printing.
- Provides a very good wash fastness, maintaining print quality even after multiple washes and wears.
- Ensures strong bonding with the fabric, preventing peeling or cracking.
- Provides an even and consistent print surface for professional results.
- Exhibits superior elasticity, ensuring flexibility and durability in printed textiles.

Application

- Before use, please stir this product well. Do not use any additives that are not advised.
- If necessary, to reduce viscosity adding 1-3% **Ecosol Thinner** is recommended.
- Once printed, crosslink at 150° -160 °C (3-2 Min).
- After use, the screen should be cleaned with the **Ecosol Thinner**.
- Allow 24 hrs. after heat curing before evaluation of the final prints.

Storage

- Stable for 12 months, whenever kept in the original containers at 25-35 °C
