Product Feature

- It can be mixed Ecosol metallics and glitter.
- It can be tinted with Ecosol inks.
- Does not influence the background color.
- Soft finish prints and superb glossy effect.
- Excellent all round durable fastness.
- No harmful or distracting odors in the work place.

Application

- Before use, please stir this product well. Do not use any additives that are not advised.
- If necessary, to reduce viscosity adding 1-3% Ecosol Thinner is recommended.
- To get jelly effect, print Ecosol Super jelly directly onto fabric or overprint the ground Ecosol colors. Base color should be completed dry prior to apply Ecosol Super jelly
- Once printed, crosslink at 150^o -160 °C (3-2 Min).
- After use, the screen should be cleaned with the Ecosol Thinner.
- Allow 24 hrs. after heat curing before evaluation of the final prints.

Storage

- Stable for 12 months, whenever kept in the original containers at 25-35 °C
