

# ECOPRINT BIODESC WHITE

**Ecological Ready-to-use emulsion to print white discharge on grounds dyed with reactive and direct dyestuffs.**

**Chemical Nature**  
Acrylic Emulsion.

**Ionic Nature**  
Anionic

**Viscosity**  
45000-48000 m-Pas  
(NDJ-5S), Sp L4 at  
12rpm at 20-25°C

**pH**  
8-9

**Physical Appearance**  
White Paste

**Fabric Type**  
Cotton fabric dyed  
with reactive & direct  
dyes

**Squeegee**  
**Shore:** 65-75

**Mesh**  
**Count:** 43-54 T

**Health & Safety**  
SDS available upon  
request

## Product Feature

- ECOPRINT BIODESC WHITE is free from formaldehyde and does not require any subsequent washing.
- It has excellent washing and rubbing fastnesses.
- It has excellent handle and high covering power.
- It is suitable to environmental standards.

## Application

- The fabric to be printed should be dyed with dischargeable reactive and direct dyes.
- The best results have been obtained with 6-8% **ECODESC BF-100**.
- It is important to filter the pastes before printing.
- It is also important to use it immediately once the reducing agent has been added.
- Once printed, crosslink at 150° -160 °C (3-2 Min).

## Storage

- Stable for 12 months, whenever kept in the original containers at 25-35 °C.
