SDS available upon
request

Product Feature

- It can be easily pigmented to achieve a wide range of colors, allowing for personalized and unique effects.
- It provides a luxurious, shimmering effect that enhances the aesthetic appeal of the final print.
- It offers a smooth and even texture that enhances the overall appearance and feel.
- It reduces the need for multiple products by combining the base and pearlescent effect in one.
- It has been formulated with environmentally friendly ingredients, making it a sustainable choice.
- It is safe for use in various textile applications, including those that come into contact with skin.

Application

- For the best result, please print at a moisture condition of 50-80% and note the impact of temperature on operability.
- Make sure the fabric is not the sublimed fabric. If yes, use anti-sublimation base ink first.
- It can be colored with 30-50 g/kg of **ECOMIN** pigment range.
- Once printed, crosslink at 150^o -160 °C (3-2 Min).

Storage

- Stable for 12 months, whenever kept in the original containers at 25-35 °C.
